

Sharrow Scientists!

Science week was a great success. The whole school took part. We all worked scientifically and had an egg drop. We read the children 'The Lighthouse Keeper's Lunch'. We told the children Mr Grinling's zip wire had broken. The children came up with the idea of using Parachutes to send his egg down the cliff for his lunch. We tested parachutes made of different materials, different lengths of string and different sizes to see which was the best one. We tested them by dropping them off the roof! Thank you to our amazing parents for joining their children with these fun activities. Take a look at what we did in Year 2.
