

Sharrow Scientists!

Science week was a great success. The whole school took part. We all worked scientifically!
We had great fun in reception looking at changes. We melted chocolate, made fruit smoothies, mixed corn flour and water to make an amazing gloop. We blew some large bubbles, made some amazing colours with our colour mixing and finally we made our own volcanic reactions. Thank you to our amazing parents for joining their children with these fun activities. Take a look at what we did.
